Description

As the lead web developer you will be responsible for all web and new media work. You will be expected to have a passion for web and new media and keep yourself up to date with all the cutting edge developments, and always be ready to offer the client the best possible solution to their problem.

You will also be responsible for liaising with various freelancers on projects, and take on joint responsibility for project management with either Simon or Paul.

You will have the ability to work to deadlines and manage your own time and work load.

You will be expected to advise clients on issues they may be having with web services as provided by Trinity, and troubleshoot these while maintaining project deadlines.

This is an exciting role, with room for bringing in your own working practices and technology ideas. Salary will be based on skills and experience
